

## WHY VISNEH ?

- Providing successful assistance in engineering sector since last 5 Years
- Continuous innovative and hardworking team members
- A huge potential and resources.

- Life Science Projects
- Chemistry Projects
- General Science Projects
- Dissection Guides
- High School Projects
- Earth & Space Science Projects
- Physical Science & Engineering Projects
- Science Fair Projects Ideas
- Microscopes & Microscopic Life Projects

Our offering

## Milestones

### Early Elementary Science Projects

Harvesting Machine

Pesticide Sprayer Machine

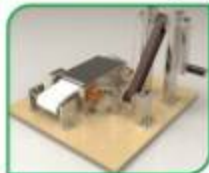

Three Axis Trolley

Hydraulic Floor Crane

Solar Tracking

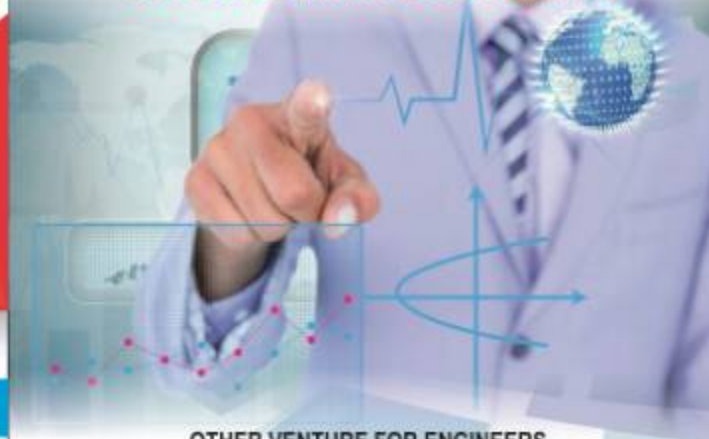

Automatic Paper cutting

## ASISTANCE

### Standard

### SCIENCE FAIR ORGANIZER

OTHER VENTURE FOR ENGINEERS

### VISNEH MASTER TECH

IDP & UDP PROJECT ASSISTANCE

Cell : 98245 05393 / 76000 26528

### LIVE CLIENT PROJECT TRAINING

JAVA

ASP.NET

ANDROID

PHP

## VISNEH MASTER TECH

Bringing Excellence to Students

### ADDRESS

### INGENIOUS SCHOOL PROJECT

Jay Bee Apartment , Street No - 8 , Royal Park ,  
between KKV and Indira Circle, I/F Jain Upashray

Contact No :- 8866740201 , 7600026528

**What is the purpose of doing science projects for school?**

Science projects serve many purposes like, helping kids to develop skills in research, organization, presentation and communication. Science projects are an example of active learning, allowing kids to learn through hands-on experience.

**Project components**

**Our Sustainability Strategy:**

Our corporate strategy complies with the principles of sustainability in fulfilling our mission. Our objective is to safeguard and boost the kid's success, creating entrepreneurial value while also respecting social values in view of creating young generation's future. We are planning to develop the projects through students that will be of great social benefit in the future. This is the only way to generate sustainably practical growth and secure the future. It does not play an isolated role at Ingenious but forms an integral part of our corporate strategy in the same way as the areas of research or human resources.

**Projects Examples**

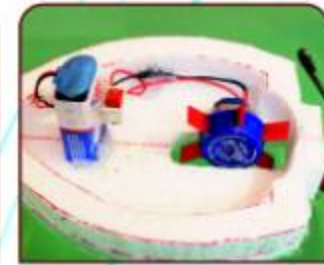

Baking Soda and Vinegar Balloon

Capillary Function

Lemon Battery

Motor Boat

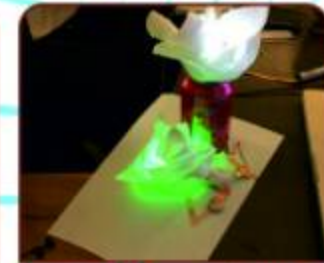

Efficient Solar Energy

Electromagnetic Ind. Experiment

Corrosiveness of Soda

Build a Paper Circuit

How to Make a Solar Oven

Wire Magnetic Field

Calculate the Mass of the Earth

Bernoulli's Principle

How to Make A Thermometer

Steam Powered Rocket Boat

Angle of Heat

Acoustics: The Study of Sound

Many More....
